

# Do I Have Bed Bugs?

## Look For:

- \* Red, itchy bites - especially if they appear when sleeping
- \* Small brown bugs on, or near, the bed
- \* Black spots on the sheets and mattress

## If You Have Bed Bugs

- \* DO contact your landlord or a licensed exterminator
- \* DON'T use a bug bomb!
  - ⇒ It will scatter the bugs!
- \* DON'T use boric acid!
  - ⇒ It doesn't harm bed bugs!
- \* DON'T use pesticides made for garden use!
  - ⇒ They are very toxic!
- \* DON'T throw out your mattress or other furniture items!
